

World-class cancer care here for you

Windsor

GenesisCare

Our purpose-built centre in Windsor provides world-class cancer care – from symptoms to survivorship – to people throughout the UK.

Welcome to GenesisCare in Windsor

Our centre here in Windsor is one of 14 across the UK providing world-class cancer diagnostics and treatment. We offer some of the UK's most advanced therapies, working closely with leading health professionals and investing in the latest techniques that are proven to be safe and effective.

This means that you don't have to travel far to find cutting-edge treatments provided as standard, often starting within days or even hours of diagnosis.

As a patient, you can expect to receive the very best personalised care and a treatment plan that also embraces life-changing approaches such as wellbeing therapies and exercise medicine. We have a dedicated and highly experienced team and we're proud to help each and every patient through their treatment – and that so many of them have rated our care as excellent.

We're here to change the way people experience cancer treatment and care, understanding what it takes to achieve the best possible life outcomes and going a little further to provide it.

GenesisCare

Windsor

Centre for diagnostics,
oncology and wellbeing

Our GenesisCare centre in Windsor is designed for world-class cancer care

Cancer treatment and care is constantly evolving and, as a global organisation, GenesisCare stays abreast of the latest evidence-based treatments from around the world, investing in those that will benefit our patients here in the UK.

The main approaches to cancer care are early detection and diagnosis so cancers can be more easily treated, surgery to remove tumours, radiotherapy to target and destroy cancer cells and chemotherapy – a wide range of drug therapies that destroy specific cancer cells.

At our Windsor outpatient (day) centre, we provide many of these treatments and use some of the most advanced techniques to treat all types of cancer.*

These include powerful MRI and PET-CT imaging for very detailed scans, precision radiotherapy techniques that are proven safe and effective for difficult-to-reach tumours while limiting dose to healthy tissue and high-dose radiotherapy for shorter treatment duration.

*Surgery is undertaken at partner hospitals

"There is no improvement that can be suggested. You have given great thought to all aspects of patient care"

Patient, Windsor

We were the first healthcare provider in the UK to offer Theranostics – ¹⁷⁷Lutetium PSMA therapy. Known as the search and destroy cancer treatment, this innovative molecular therapy finds and treats cancer cells that can't be reached with conventional treatments. It is available here at our Windsor centre for patients with advanced prostate cancer from the UK and overseas.

Our patients are referred to us from across the Berkshire area as well as further afield and we have a reputation for delivering excellent care.

Patients can also be referred to specialist services available at other GenesisCare centres within our network. These include new treatments such as MRIdian MRI-guided radiotherapy for difficult-to-treat tumours and stereotactic radiosurgery for small brain tumours.

Your oncologist will work with experts throughout our network to ensure that you have the most appropriate treatment for you.

It matters to us that so many of our patients can take away some positive experience from their cancer journey

What we offer at Windsor

If you'd like more information about any of our services, please go to [genescare.com](https://www.genescare.com) or ask for one of our patient brochures

Stereotactic radiosurgery	●	●

When required, we'll help our patients with transport depending on treatment and locations. Please enquire for more details.

More than treating your cancer

We know that for many people cancer is a life-changing experience and our goal is to help you meet the emotional and psychological challenges in the most positive way possible. That's why we've partnered with Penny Brohn UK to provide a ground-breaking approach to complementary and wellbeing therapies alongside conventional medicine. Through a programme carefully tailored to your needs, we can help you to deal with the side effects of treatment, reduce stress and let you take back control.

We also offer exercise medicine, which is proven effective in improving treatment tolerance, building muscle mass and reducing cancer-related fatigue, among many other benefits. You'll be prescribed an exercise programme tailored to your cancer type, treatment and overall health – as well as your own personal goals. You'll be offered these services at no extra cost to you or your insurance provider.

We are proud to have the Macmillan Quality Environment Mark demonstrating that our centre is welcoming and accessible to all and that we are respectful and supportive, giving you control over how you use our services. We have quiet spaces for patients to have time to themselves.

We can design and plan treatments around your work and life commitments and we provide complimentary transport to and from the centre when required, depending on treatment and location. There is ample parking if you drive. A friend or family member is welcome to come with you and a variety of refreshments are available.

Here for you

These are some of the different experts and support staff who make up our teams.

Your care will be led by a consultant oncologist who will work alongside our experienced team based here at our centre and partner hospitals. Together they will manage your personalised treatment and care plan.

Consultant oncologist

All of our consultant oncologists also work in large regional NHS hospitals, such as The Royal Marsden and Royal Berkshire Hospital. This means they have a very wide knowledge and experience and are familiar with the local healthcare networks. They use various

methods to treat cancer, including chemotherapy and radiotherapy.

Diagnostic radiographer

Uses imaging techniques, such as MRI, PET/CT and PET, to capture and interpret scans and reports their findings to your oncologist.

Therapy radiographer

Involved in radiotherapy planning scans, treatment planning and delivering radiotherapy. You'll see them at every radiotherapy session.

Dosimetrist

Helps your oncologist plan your radiotherapy treatment to destroy cancer cells while limiting damage to healthy tissues.

Our key specialists also have strong links with local cancer support networks and survivorship programmes

Physicist

Measures the dose of radiation you receive during radiotherapy to ensure it is safe and as prescribed by your oncologist.

Chemotherapy nurse

Administers and monitors chemotherapy, helps evaluate the effectiveness of treatment, and advises on side effects and aftercare.

Clinical nurse specialist

Has additional training to help treat and manage cancer-specific symptoms or treatment side effects.

Outpatient nurse

Runs clinics and assists with and performs minor procedures.

Penny Brohn wellbeing consultant

Provides complementary and wellbeing therapies that are proven to ease cancer-related concerns.

Exercise medicine specialist

Prescribes a tailored exercise programme to improve treatment tolerance and reduce side effects.

Pharmacist

Dispenses medicines as prescribed by your oncologist.

Patient administration officer

Responsible for booking your treatments, dealing with funding and insurance and arranging transport.

We're easy to get to

From the M4, exit at junction 6, towards Windsor (A332). At the roundabout take the 2nd exit onto Goslar Way/A308. At the next roundabout, take the 1st exit onto Alma Road. GenesisCare is on the left, behind the Holiday Inn.

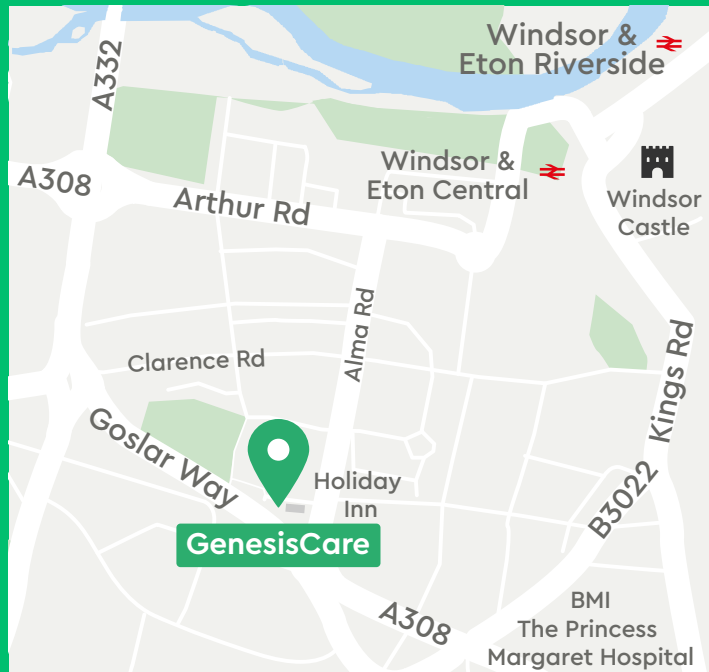

From the M3, exit at junction 3 towards Woking. At the 1st roundabout, take the 1st exit onto the A322. At the 2nd roundabout, take the 2nd exit onto Windsor Road (A332). Follow this road for two miles, taking the 4th exit at the next roundabout onto the A332. At the next roundabout, take the 1st exit onto Osborne Road. Keep right – at the roundabout, take the 2nd exit onto Alma Road.

Opening hours
